

Konsekvenser af ledighed

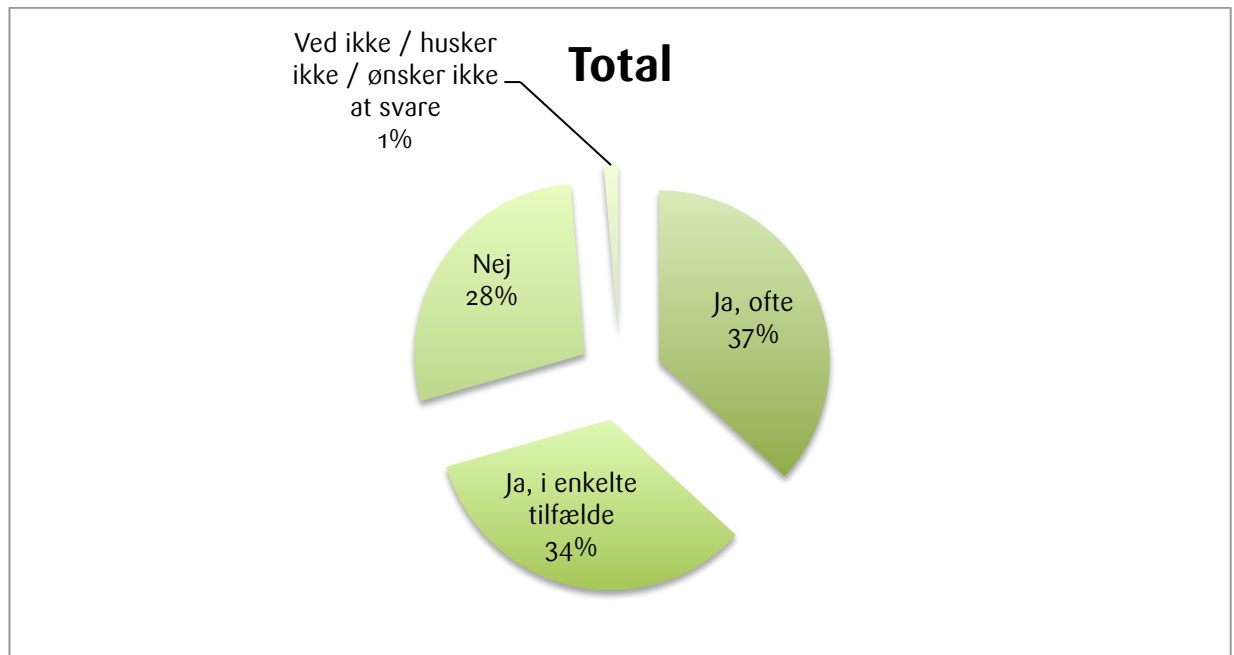

Oktober 2015

Data indsamlet i 2015 af Userneeds for Min A-kasse blandt 515 repræsentativt udvalgte personer, der indenfor de seneste 24 måneder har været eller er ufrivilligt ledige.

Har du følt dig mindreværdig, fordi du var/er arbejdsløs?

Har du følt dig set ned på af andre, fordi du var/er arbejdsløs?

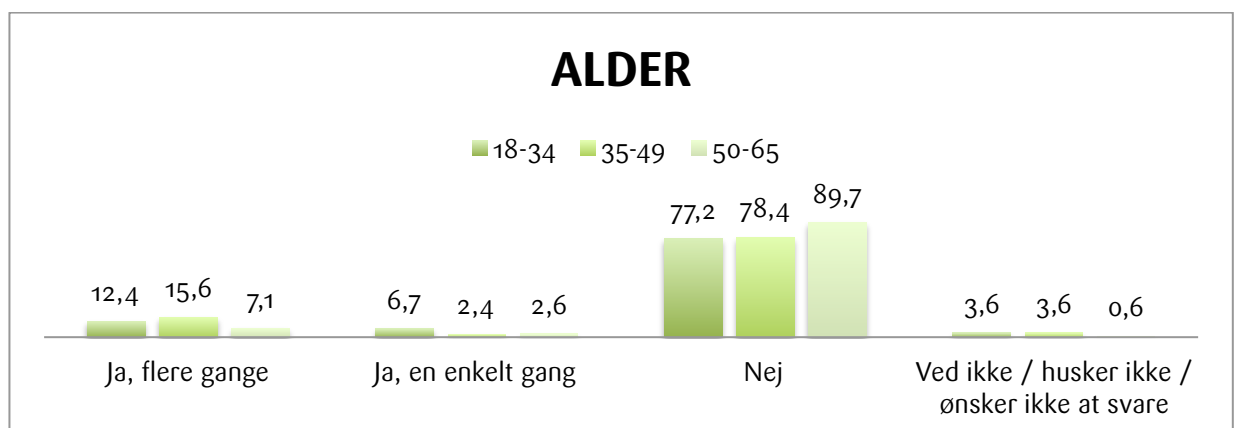

Oplevede/oplever du, at føle dig mere stresset?

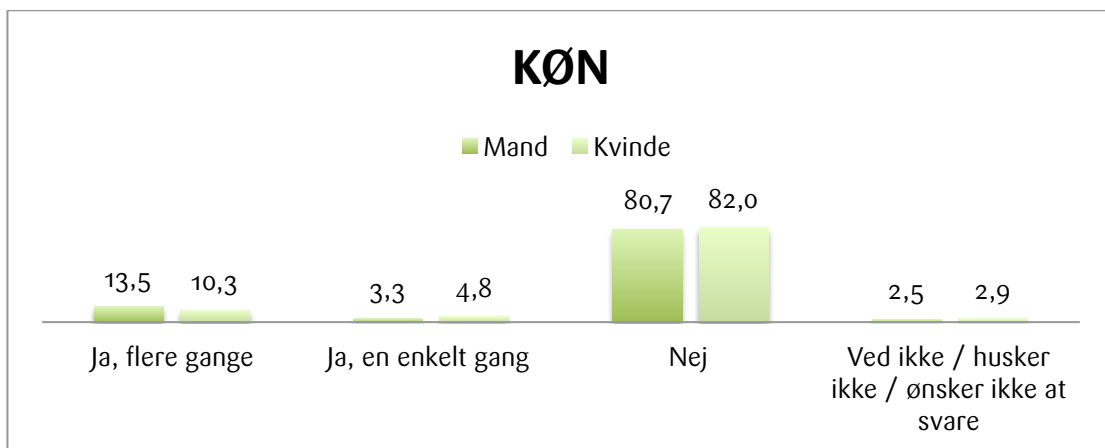

Har du i højere eller mindre grad skammet dig over at være arbejdsløs i forhold til dine bekendte?

Har du undgået sociale arrangementer for at slippe for spørgsmålet "Hvad laver du, så?"

Har du holdt dig indendørs i "normal arbejdstid" for at undgå, at blive konfronteret med, at du var arbejdsløs?

Den offentlige debat om arbejdsløshed er for hård i tonen
